MEMORANIUM FOR: SUBJECT: Tracter production in the Ukrainian SSR in the first half of 1958, as reported in Pravda Ukrainy, 30 July 1958, p. 1., amounted to 11,500 units, of which 29,700 were rew-crep tracters. This represents an increase of 12 percent ever the first half year figures of 1957 for tracters, and 16 percent more rew-crep tracters produced in the first half of 1958 are DT-51 tractors made at the Khar'kov Tractor Plant. Of the row-cop tractors at least 10,000 and possibly 12,000 are DT-11 tractors made at the same plant. 1957 production of DT-11 tractors has been estimated at 20,000. 2. Of the reamining 17,700 to 19,700 row-crop tractors made in the Ukraine in the first half of 1958, some were BSh-11 and WSSh-16, self-propelled chassis, made at the Khar'kov Tractor Assembly Plant. Information is scanty on the rate of production and the plant capacity of the Tractor Assembly Plant, but it is estimated, on the basis of information presented that half yearly production at this plant did not exceed 5,000 units. This leaves a residual of 12,700 to 11,700 row-crop tractors produced in the Ukrainian SSR in the first half of 1958. It is apparent that these are "Belarus" tractors, made at Dnepropetrovsk and that production of tractors at the Dnepropetrovsk plant is continuing at approximately the same rate as in 1956 and 1957.					
1. Tracter preduction in the Ukraimian SSR in the first half of 1958, as reported in Pravda Ukraimy, 30 July 1958, p. 1., amounted to 11,500 units, of which 29,700 were rew-crep tracters. This represents an increase of 12 percent over the first half year figures of 1957 for tracters, and 16 percent more rew-crep tracters than in the comparable period of 1957. The 11,800 nen-rew-crep tracters produced in the first half of 1958 are DT-51 tractors made at the Khar'kov Tractor Plant. Of the row-crop tractors at least 10,000 and possibly 12,000 are DT-11 tractors made at the same plant. 1957 production of DT-14 tractors has been estimated at 20,000. 2. Of the reamining 17,700 to 19,700 row-crop tractors made in the Ukraine in the first half of 1958, some were DSSh-14 and DVSSh-16, self-propelled chassis, made at the Khar'kov Tractor Assembly Plant. Information is scanty on the rate of production and the plant capacity of the Tractor Assembly Plant, but it is estimated, on the basis of information presented that half yearly production at this plant did not exceed 5,000 units. This leaves a residual of 12,700 to 11,700 row-crop tractors produced in the Ukrainian SSR in the first half of 1958. It is apparent that these are "Belarus" tractors, made at Dnepropetrovsk and that production of tractors at the Dnepropetrovsk plant is continuing at			•		STAT
1. Tracter preduction in the Ukrainian SSR in the first half of 1958, as reported in Pravda Ukrainy, 30 July 1958, p. 1., amounted to 41,500 units, of which 29,700 were rew-crep tracters. This represents an increase of 12 percent over the first half year figures of 1957 for tracters, and 16 percent more rew-crep tracters than in the comparable period of 1957. The 11,800 non-rew-crep tracters produced in the first half of 1958 are NT-54 tractors made at the Khar'kov Tractor Plant. Of the row-crop tractors at least 10,000 and possibly 12,000 are DT-14 tractors made at the same plant. 1957 production of DT-14 tractors has been estimated at 20,000. 2. Of the reamining 17,700 to 19,700 row-crop tractors made in the first half of 1958, some were BSSh-14 and DVSSh-16, self-cropelled chassis, made at the Khar'kov Tractor Assembly Plant.
